

Household Experiments (Step Taboo Steamy Romance)

Home alone without anyone watching, two eighteen year olds begin the joy of discovery that only comes from being innocent and untouched. They may have grown up together, but that hasn't stopped the lust from growing deep within their bodies. And explore and experiment they do, leaving no hole unfilled and no body part unstimulated. Because once you start a journey like this, you need to finish it. Hard, fast, and without protection! This is a fun and experimental story with a surprising twist to the tale, with a bonus for readers at the end!
