

MCSE Designing Microsoft Windows 2000 Network Security Readiness Review; Exam 70-220 (Pro-Certification)

Microsoft Certified Professional (MCP) Exam 70-220 measures the ability to analyze the business requirements for security and design a security solution for a network based on the Windows 2000 operating system. The Readiness Review electronic assessment tool delivers randomly generated practice tests covering actual MCP exam objectives. Readers can test and retest with different question sets each time.
