No, dearest, loveliest, Elizabeth, I fully intend to do it again. He kissed her harder, this time allowing more passion to seep into his desires. His tongue applied more pressure; he sucked a little harder, this time taking her tongue in and out of his mouth a couple of times. When he pulled away Elizabeth wasnt ready, she still wanted more. Her hips were unconsciously moving back and forth against him in time with the rhythm of his suckle. Her breathing was more labored, and her fingers were wrapped passionately in his hair. One of his hands had found the hem of her gown and already his hand was splayed on the back of her stocking covered thigh. Fitzwilliam desired to remove the offending garment, but thought it prudent to leave it in place as they likely were

closing in on the last mile to Netherfield Park; the home of his best friend and now brother-in-law who was hosting the wedding brunch. Elizabeth could not move any closer; she was now fully on his lap, straddling him like a wonton chatelaine. Her passion had been so invoked that she knew not what she was doing, grazing her ample breasts back and forth against his chest. Then to her surprise her abdomen brushed against something unexpected. Sitting back and looking at the area of Fitzwilliams body her mother had strictly lectured her, in her youth, never to look at was an immense bulge. His breeches were taut, and his erection left little to her imagination. Elizabeth looked back and forth between Fitzwilliams manhood and his face. His rakish smile had left, but his eyes were dark pools of passion she wanted to dive back into. Fitzwilliam swore, something Elizabeth had never heard him do before, then grabbed her buttocks with both hands and pulled her firmly against him. Elizabeth wrapped her arms around him and sway her hips back and forth rubbing his manhood all over her special place. He bucked against her terribly aching for the release that would only happen once he was inside of her. A soft moan escaped her lips against Fitzwilliams ear, and before she could think, he had swiftly picked her up and plopped her unceremoniously on the seat across from him. She leaned forward for more, but he placed his hand up to stop her. No Madame, we must stop. We are almost at Netherfield, and I already fear I shall not be able to leave this carriage with any dignity.
