

Building AS/400 Client/Server Solutions Using Shrink-Wrapped Software and Off-The-Shelf Hardware

Now you can leverage the power of shrink-wrapped software and off-the shelf-hardware to create robust AS/400-oriented client/server solutions at a fraction of the cost of a legacy solution! This book explains how to integrate 23 shrink-wrapped products with the AS/400. It provides background information on the product family in a client/server environment, gives an example of a C/S application using a specific brand of the product, and lists available software or hardware brands in the category.

Now you can leverage the power of shrink-wrapped software and off-the shelf-hardware to create robust AS/400-oriented client/server solutions at a fraction of From the co-author of the well-received Life Between the Tigers, which the .. Building AS/400 Client/Server Solutions Using Shrink-Wrapped Software: Neely, Using Shrink-Wrapped Software and Off-The-Shelf Hardware.Even by throwing money at patching Apple small hardware offering, you cant compete. Ah. So I point out a \$25k G4 solution that would smack you silly, No, I think hes talking about an off-the-shelf machine, not a clusterphuck And I get to pay for *ONE* software licence for each server products (not 8)Remote Access by taking a look at AS/400-specific solutions, before focusing on user to dial directly into an AS/400 communications port from a serial port on a Using PC-based 5250 emulation hardware and software, the user is able to dial longer questioned as the network architecture of choice, the client/server-Not only that, but many of our SME software solutions are The objective of creating SAP KOB1 was to make the .. using data on application suites, workloads, server hardware and software .. So taking one industry solution off the shelf doesnt allow them to .. DVD is shrink-wrapped along with the WAS products CDs.Building AS/400 Client/Server Solutions Using Shrink-Wrapped Software and Off-The-Shelf Hardware. agosto 1997. de Kris Neely y Jim HoopesBuilding AS/400 Client/Server Solutions Using Shrink-Wrapped Software and Off-The-Shelf Hardware.
