Clara is drop dead gorgeous and has a PhD in time travel and she couldn't be more excited about the Time Project that she is overseeing. Unfortunately, one night before a big presentation for a group of investors, there's a horrible accident with her machine and she's sent thousands of years back in time. And she soon finds out that she's not alone. It doesn't take long for the locals to find her and show her some rough and steamy prehistoric hospitality, whether she wants it or not. After all, no one is even in their vocabulary yet... Warning: This 6,000+ word short story that includes a lusty primal caveman who quickly develops a taste for modern woman.
