

# Cisco Certified Internetwork Expert - CCIE Certification Exam Preparation Course in a Book for Passing the Cisco Certified Internetwork Expert - CCIE ... on Your First Try Certification Study Guide

This self-study exam preparation guide for the Cisco Certified Internetwork Expert - CCIE certification exam contains everything you need to test yourself and pass the Exam. All Exam topics are covered and insider secrets, complete explanations of all Cisco Certified Internetwork Expert - CCIE subjects, test tricks and tips, numerous highly realistic sample questions, and exercises designed to strengthen understanding of Cisco Certified Internetwork Expert - CCIE concepts and prepare you for exam success on the first attempt are provided. Cisco Systems has created today's premier networking certification, the CCIE (Cisco Certified Internetworking Expert). Obtaining the Cisco CCIE certification is the goal of many network engineers, and not a very easy task. The passing rate of the test is amazingly low, with some estimates under 10% passing. The Cisco Certified Internetwork Expert (CCIE) certification is accepted worldwide as the most prestigious networking certification in the industry. Network Engineers holding an active Cisco CCIE certification are recognized for their expert network engineering skills and mastery of Cisco products and solutions. The CCIE community has established a reputation of leading the networking industry in deep technical networking knowledge and are deployed into the most technically challenging network assignments. The program continually updates and revises its testing tools and methodologies to ensure unparalleled program quality, relevance and value. Through a rigorous written exam and a performance based lab, the CCIE program sets the standard for internetworking expertise. Cisco introduced the CCIE certification in 1993 to assist the industry in distinguishing the top echelon of internetworking experts worldwide. Today, CCIE certification holders represent less than 3% of all certified Cisco professionals

and less than 1% of the networking professionals worldwide. Can you imagine valuing a book so much that you send the author a
