While comedy writers are responsible for creating clever scripts, comedic animators have a much more complicated problem to solve: What makes a physical character funny? Comedy for Animators breaks down the answer by exploring the techniques of those who have used their bodies to make others laugh. Drawing from traditions such as commedia dell'arte, pantomime, Vaudeville, the circus, and silent and modern film, animators will learn not only to create funny characters, but also how to execute gags, create a comic climate, and use environment as a character. Whether you're creating a comic villain or a bumbling sidekick, this is the one and only guide you need to get your audience laughing! Explanation of comedic archetypes and devices will both inspire and inform your creative choices. Exploration of various modes of storytelling allows you to give the right context for your story and characters. Tips for creating worlds, scenarios, and casts for your characters to flourish in.
