

The Missionary Position

A novel of love, interracial sex, and the power of the human will to survive. Naomi and Jacob are husband and wife missionaries who work among the primitive tribes in the Central American rainforests. They know they can't change these tribes overnight yet they try to help and to teach them about God and love. What they can't foresee is the effect one Honduran tribe's customs of free and open sexuality, as well as their use of magic plants as a male enhancer and aphrodisiac will have on them and their marriage. Following a heinous act of barbarism, Naomi's life is turned upside down. She will run. She will be lost. This is the adventure of a brave and resilient woman who never loses her faith and perseveres through tragedy, as well as others who endure the savagery of the deep rainforest to persevere in a harsh and to outsiders an often unforgiving place.
