

Legal Drafting, Process, Techniques, and Exercises (American Casebook Series)

This text provides a comprehensive and flexible teaching instrument for any course in legal drafting. It contains text, examples, and exercises that deal with both contract and statutory drafting - making the text suitable for a general drafting course, or one that focuses on either of the two more specialized forms of a drafted document. Most of the chapters have an end-of-the-chapter exercise that tests the students knowledge of and ability to apply the materials. It also contains further drafting exercises that involve drafting or revising either specific provisions or entire contracts and statutes.
