

## The Island of Doctor Sex: Bred by the Lizardman

Book 1 of 5. Five story bundle ( B00CGC25VW) now available. When she wakes up alone in a zoo enclosure, Miss Gardner doesn't know what to think. Then a sexy man in a white coat offers her an obscene amount of money to take part in his experiment. After an orgasmic physical exam, she's horrified to find out that his research involves mating with a lizard-man. But the big, strong mutant is rather more attractive than she expected. Will she agree to test the doctor's theories on sperm competition? Contains kidnapping, a squirt-tastic internal exam, reluctant monster breeding and first time anal with a well-hung lizard-man. This short story is roughly 4,700 words long and is not intended for readers under the age of eighteen. EXCERPT I'm not for sale. Like money would make up for what he'd done to me. Name your price. No. Let me go. Fifty thousand? No, I screamed. He was lying. He didn't have that sort of cash. It didn't matter anyway. I could never make a deal with a lunatic like him. Okay, name your price. A million. It popped out of my mouth. I think I was trying to shock him. One million was the fantasy lottery win amount I always dreamed about. I knew he couldn't pay me. I didn't want him to. I only wanted to go home. Okay. If you promise to co-operate, you can have a million. If I'm honest, it did stop me in my tracks for a moment. I even stopped crying. But he was only trying to shut me up. Miss Gardner. His voice came from somewhere outside the cage that time, not from the speaker. I got up and rushed forward without thinking. I'd nearly reached the bars before I realised it would be safer to stay out of reach. I know you don't believe me, but if you'd care to come closer I can show you a down-payment. The light silhouetted him beyond the bars. I could see the outline of his close-cropped curls and the shape of his white coat. He was taller than I remembered, but then, we'd both been

sitting down at the bar. His glasses caught the light as he stepped closer and I had a sudden flash of memory. Back at the bar, I leaned in to kiss him and his glasses had actually steamed up. I thought that only happened in cartoons. I inched forward, being careful not to get too close. He came into the light and I saw his face. How could I have forgotten those high cheekbones and that strong jaw with a sexy sprinkling of stubble? With those full, rosy lips, I wasn't surprised I tried to kiss him. My nutty Dr Frankenstein was seriously hot. He held up a suitcase and flipped it open. My jaw dropped when I saw he was holding bundles of banknotes. Of course, this isn't the full million, but I can bring the rest if my word isn't good enough. I stood there gaping. He had thousands in his case. The money had to be fake. But what if it wasn't? Do we have a deal, Miss Gardner? My heart raced. Would he really give me a million to take part in his experiment? Why don't we take it one step at a time? He put down the money and came right up to the bars. Again, it struck me how gorgeous he was. It wasn't an appropriate thought to have, but I couldn't help it. How about I give you twenty thousand and you let me give you a thorough examination?
