

Eternally Human: Bloodmoon Elixir (Volume 2)

Liverpool was only a few hundred miles away from Catterick, not even, so what possible trouble could I ever get into? A lot apparently. Thrown into the world of werewolves who carried a toxic secret, I soon found out just how much trouble one can get into just by walking through Middleham Forest. Thankfully my chemistry knowledge, plus the fact that I was now born into a pretty badass lineage of vampires, I became a useful asset and a powerful ally. But that wasn't all I was to become for the Morgenstern Pack, I was to potentially become their saviour. With The Order, a group of possible vampire assassins, biting at our heels, there was only so much time to bait and trap them and to find out their true mission, and with the pressure of finding Aribella in Liverpool growing, I wondered just how easy it was going to be to get out of there. With a whole new slew of friends by my side, I figured it would be no big deal, but who knows if I'll be ready for the tests that lie ahead.
