Author Joe Vitale
What can readers expect to get out of this book? The solution to all problems. It's a tall order, but the book reveals that you have to transcend problems to solve them. I've taken Einstein's quote about not being able to solve problems with the same mind that created them and turned it into a how-to formula. The book reveals that secret. The book is set up to guide readers through the four stages of the awakening process. How important is it to follow each step before moving on to the next? It's essential. Life is a process of awakening. There are four stages to it. No

one that I know of jumps to stage four without going through the first three stages.

Is there a personal story behind the writing of this book? This book is an extension of my own awakening. My life-long search for ways to help people, which I recorded in my other books, led to a spontaneous understanding of how life works. I found this to be the secret to living a life of happiness. I recorded my insights and that CD program sold out instantly. I later turned that program into this book. You've previously shared the Awakening Course in CD format. What are some of the success stories people have shared with you after they've taken the course journey?

I've heard everything from spontaneous healings to people attracting wealth and romance and everything in between. I'd say the greatest responses have been from people who suddenly feel happy; they are alive again and now feel they understand how to resolve any problem or challenge they face. It's incredible, and very gratifying to me as the author.

The Awakening Course: The Secret to Solving All Problems I'm also fed up hearing that he's a big movie star after appearing in The Secret. It was a good thing.
