** Now available in a BUNDLE at a discounted price for the first 3 chapters! **
Catherine is used to being punished for her incompetence as an apprentice, but she's soon given a chance to run an errand for her eccentric and perverse mistress. There's little faith that the ditzy blonde can accomplish the task by herself, so Nathara, an enslaved Dark Elf princess cursed with a huge and less than fitting piece of anatomy, is charged with the opportunity to prove herself worthy by accompanying Catherine. However, details are of the essence, as they reach their destination late at night, they make a mistake that may cost them dearly as they enter the abandoned and dilapidated cathedral guarded by futanari gargoyles. Will the unlikely duo be able to succeed without incident, or will the creatures make them think again about stealing from holy ground? This 11,400 word erotic short story contains highly sexual situations and is only intended for adult audiences.
