

Werebear Romance: Bear in the Mountains (paranormal bear shapeshifter romance) (new adult paranormal bear shifter comedy short stories)

Ursula Marsden is standing in front of her washing machine, putting in a load of laundry and minding her own business, when an enormous bear lopez into her yard. He bellows at her in rage, and Ursula notices wounds on his leg and his side. At that moment, a group of hunters appears between the trees. Before they see him, the bear runs off and disappears behind Ursulas woodshed. The hunters are hunting the bear. They tell Ursula he attacked a campsite and killed several people. They want to know if shes seen him in the area, but she lies and they leave without finding him. Ursula goes back to what she was doing, but later, a strange noise attracts her attention and she goes to investigate. To her surprise, she finds a young man, wounded and raged, in her woodshed. Just before he loses consciousness, he begs her to help him, and she cannot ignore his plea. She drives him to the local clinic for help. But the hunters wont give up so easily. Now that Ursula helped him escape, the hunters consider her an enemy, and theyll come after her the same way they came after the bear. Ursula finds herself swept up in a war of loyalty, passion, and danger as old as the mountains themselves. Will she escape to love again? Will she find a life of fulfillment among the strange people of this new and secret landscape? Ursula must summon all her strength and courage to face the danger, and rise to a shining destiny she never dreamed possible. Warning! This ebook contains explicit scenes of passion and desire. For adult eyes only!!!
